

MC-11C

Mobile Combo Self-Erect
Central Mix Plant

- 400 cubic yard per hour production capabilities
- Approved mix times in as few as 30 seconds
- Self-erect setup as fast as 4 hours achieved using a 20 HP self-contained power unit
- Open configuration allows for ease of maintenance and access to all plant components
- Innovative plant and safety design features that evolve with the industry

*Estimated production based on industry standards, consult factory for details

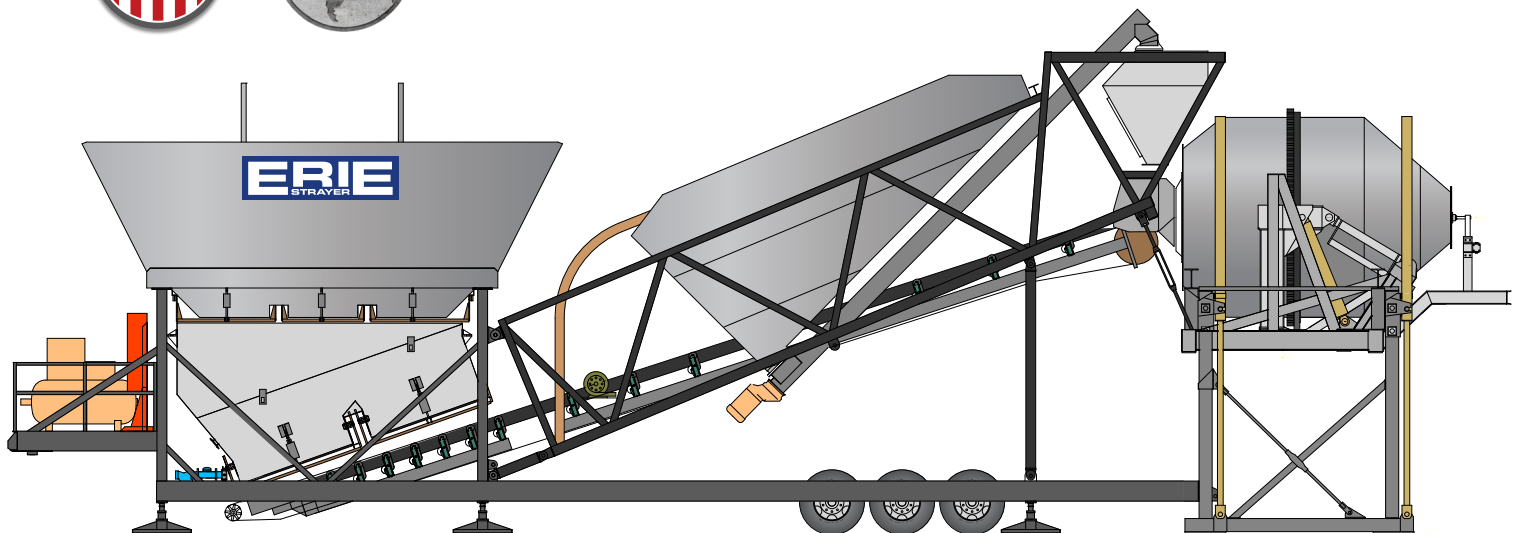

MC-11C

Mobile Combo Self-Erect Central Mix Plant

The ERIE MC-11C is the premier self-erect mobile central mix plant in the concrete industry. Equipped with a self-contained, self-erect hydraulic system, there is no need to erect the plant with a crane.

FEATURES

- 12 cubic yard highly mobile self-erect tilt mixer
- 50 or 60 HP water-cooled high-speed mixer hydraulic system
- Automatic central grease and mixer lubrication
- Twin 75 HP crusher-duty TEFC drive motors
- Heavy Duty Auburn M10B reducing units
- Heavy Duty Duroxite mixing buckets and blades
- 12 or 24 volt DC Emergency tilt system
- 300 BBL to 700 BBL in-truss cement bin with dual 12" screw conveyors
- Cumulative cement batcher
- 4 ½ HP aeration blower
- 20 HP high-flow water pump with 4" feed line
- 48" batch transfer conveyor
- C&W central dust collection mounted on mobile mixer unit
- 50 yard to 100 yard aggregate bin
- Cumulative or individual aggregate batcher(s)
- Telescopic test weight hangers
- 15 HP Ingersoll-Rand air compressor
- 20 HP self-erect hydraulic system
- ERIE Liberty computer control system with manual panel
- Automatic aggregate handling panel
- Bin charging conveyors
- UL / CSA certified plant motor control panel
